Good morning. I live in rural Ste. Genevieve county in Missouri. I don't think we have access to broadband; I'm not sure. We have wi-fi through AT&T but it is not very fast. Big River has built a tower nearby and is advertizing for subscribers. Is this broadband? A tech savvy neighbor advised us not to subscribe as he feared they would get too many subscribers and it would slow down the whole system. Is this true? We have Direct TV which offers Interiet but I have heard that it is not very fast either. Is this true?

Thank you for a response.
