January 14, 2021

The Honorable Rosa L. DeLauro  
Chair  
Committee on Appropriations  
House of Representatives  
Washington, DC  20515

RE: Notice of Estimated Relocation or Sharing Costs and Timelines for 3450-3550 MHz Band

Dear Chair DeLauro:

Pursuant to Section 113(g)(5) of the National Telecommunications and Information Administration ("NTIA") Organization Act, as amended (47 U.S.C. § 923(g)(5)), please find enclosed the initial estimated relocation or sharing costs and timelines for the 3450-3550 MHz spectrum band for approval.1 NTIA, on behalf of the eligible federal entities and after review by the Office of Management and Budget, has this same day notified the Federal Communications Commission (FCC) of these initial estimated costs and timelines. NTIA is concurrently providing a copy of the estimated costs and timelines to the Comptroller General.

On June 12, 2020, the FCC notified NTIA of its plan to auction licenses in 100 megahertz of the 3400-3550 MHz band beginning in December 2021.2 On August 17, 2020, NTIA began the federal transition planning process in preparation for an auction of the 3450-3550 MHz band as early as December 13, 2021, in accordance with the Commercial Spectrum Enhancement Act (CSEA).3 While NTIA informed the affected agencies that the statutory deadline for submitting transition plans to NTIA and the Technical Panel was April 16, 2021, the agencies submitted their plans much earlier – in November 2020.4 On January 13, 2021, the Technical Panel found

---

1 The 3450-3550 MHz band is a band of “eligible frequencies” as described in Section 113(g)(2) of the NTIA Organization Act, as amended (47 U.S.C. § 923(g)(2)). Unless disapproved within 30 days, the estimate shall be approved. If disapproved, NTIA may resubmit revised initial estimate. 47 U.S.C. § 923(g)(5).

4 The Technical Panel was established by Section 113(h)(3)(A) of the NTIA Organization Act, as amended (47 U.S.C. § 923(h)(3)(A)), and is governed by 47 CFR Part 301.
the revised transition plans submitted by the federal entities to be sufficient, and NTIA compiled and consolidated the enclosed estimated costs and timelines.\footnote{See 47 U.S.C. § 923(h)(4). Not later than 120 days before the commencement of the auction of the eligible frequencies, NTIA will publish the publicly available transition plans on NTIA’s website. \textit{See 47 U.S. C.} § 923(h)(5); \textit{see also id.} § 923(h)(7) and NTIA Manual of Regulations and Procedures for Federal Radio Frequency Management § 0.7 (Classified and Other Sensitive Information).}

If you have any questions regarding this matter, please do not hesitate to contact James Wasilewski, Director of NTIA’s Office of Congressional Affairs, at jwasilewski@ntia.gov or (202) 482-1830.

Sincerely,

Carolyn Roddy
Deputy Assistant Secretary for Communications and Information, performing the delegated duties of the Assistant Secretary of Commerce for Communications and Information

1 The "Spending Timeline" identifies the estimated maximum time period during which the federal entity will use amounts received from the Spectrum Relocation Fund (SRF) (represented by the number of months after transfer from the SRF when the entity estimates it will complete using SRF funds).

2 The "Transition Timeline" is the estimated maximum number of months from the start of the transition period (the date on which the auction concludes) and when relocation is complete or coordination within Cooperative Planning Areas (CPAs) begins pursuant to applicable sharing criteria and arrangements. The conclusion of the auction is the date on which an auction of eligible frequencies concludes in accordance with Section 309(j)(16)(B) of the Communications Act of 1934, as amended.

3 The FCC’s Further Notice of Proposed Rulemaking in WT Docket No. 19-348 proposed to define Cooperative Planning Areas (CPAs) as geographic locations in which non-federal operations shall coordinate with federal systems in the band to deploy non-federal operations in a manner that shall not cause harmful interference to federal systems operating in the band and to protect non-federal operations from potential harm caused by high powered federal operations.

4 For the Little Rock AFB CPA, the Air Force will begin temporary coordinated sharing with Station Keeping Equipment (SKE) frequencies starting at 12 months after the auction concludes; for all other frequencies, including SKE frequencies at other locations, sharing will begin at 9 months after the auction concludes. The Air Force estimates that all use of these frequencies will cease by 138 months after the auction concludes.
